

Cultural Arts Workshop in Ghana with Cross Cultural Collaborative

Experience first-hand the creative spirit and traditional African Art of Ghana!

The Cultural Arts Exchange at *Cross Cultural Collaborative* is a unique real-world opportunity to surround yourself with the tropical beauty of Ghana while creating intimate connections with Ghanaian villagers through art, music and culture.

Delight in the simple pleasures of creating beautiful art from things that grow.

Our cultural arts center at ABA House is a gathering place overlooking the ocean and the fishing village of Nungua, just south of the capital at Accra. At ABA House, you experience an intimate interaction with the local community every day, immersed in a spiritual culture that is grounded in tradition; where art is part of everyday life. Nungua has become a budding artists colony where potters, batik artists, traditional Kente fabric artists, bead and basket makers, dancers and drummers and many free spirits all contribute to the unique character of the village.

Don't see Africa from the window of a tour bus!

Cross Cultural Collaborative offers unique people-to-people cultural arts immersion experiences for all kinds of travelers. We guarantee flexibility and individual attention to meet the needs and interests of each group and traveler. Contact us for descriptions of specialized professional workshops, African-American history programs and inspirational personal journeys.

Share the creative spirit of Ghana!

Special travel packages for artisans available. Contact us for more information at:
